You may have noticed that no Repub lican is knocked out of time by what happened in Ohio and Iowa. Every Re-publican knows where those States will be in 1892. This is why there is no indigo on the Republican countenance.

DAVID B. HILL will not like what the Democrats are saying about liquor-sellers and liquor-selling. On that rock he is building his hopes of a Presidential nomination at the hands of the Democratic party. Be careful you don't stir David up on a question so near his heart.

A GREAT many regular patrons of bar rooms are denouncing Mr. Morton for allowing his tenant to sell liquor on premises owned by Mr. Morton. Their righteous indignation is very touching. Has Mr. Morton sought to compel then to live in the "Shoreham" and do their drinking there?

BEFORE the Democrats get through with their search for a leader in the House of Representatives, they may have reason to regret that Mr. Randall's health will not permit him to serve again in that capacity. They don't want Randali, but how are they going to get along with nobody? Most of the aspi-

A False Notion of Manhood.

The preacher who said the last words over the late Col. Swope admonished his harrers that "there is a false notion of manhood in Kenjucke," The preacher F. J. It is a false notion of manhood that ple of Kentucky.

It is a false notion of manhood that when two men fall out, no matter how trivial the cause, they must have it out with the revolver or the knife or both, as happened in the Swope-Goodloe affair. It is a false notion that these encounters prove anything beyond the physicial courage and moral cowardice of the men who engage in them, and the

Citizens of this Republic as respecta-ble and of as good standing as Mr. Lavi P. Morton lease premises to persons who ell liquor on them. The people of the United States, through their representatives in Congress, do it when they lease the two restaurants in the Capitol, in both of which all sorts of intoxicating beverages are sold.

Is Mr. Morton to be singled out for

attack as though he were the sole offen-der? By whom is he made the target for these attacks? By Democrats and Third Party people. For what purpose? For a political purpose and for no other purpose. What has the Republican-party to do with Mr. Morton's hotel? Nothing more than it has to do with the iquor selling hotel in Chicago in which the Women's Christian Temperance Union is making its headquarters. The hypocrisy is too transparent to deceive.

A DEMOCRATIC SCHEME

To Rotire Certain Prominent Ohio Repub licans—Leading Congressmen to He th Victims of Redistricting Tactics.

Washington, D. C., Nov. 12.—A lot of wild talk is being indulged in around Washington by Democrats who are stil exulting over the victory of their party in Ohio. They claim that most of the Republican delegates in Congress from

Republican delogates in Congress from that State will be retired to private life through redistricting, which will give every advantage to the Democrats in the next Congressional election and change the present representation materially. It is also claimed that the prospects of Major McKinley for the Speakership have been damaged by the result, because he will not be allowed to succeed himself in the Fifty-second Congress. Also that no other Ohio Republican stands a show for the Speakership for this same reason.

himself in the Fifty-second Congress. Also that no other Ohio Republican stands a show for the Speakership for this same reason.

While Republicans know and expect a general gerrymandering by the Democrats in Ohio which will cut into avery Republican district in all ways that the ingenuity of remorseless politicians can devise, they cannot see how they are to be deprived of representation almost entirely, as some Democrats insist.

Neither can they understand why the declaration of Democratic war against Messers. McKinley, Butterworth, Grosvenor, Thompson and other Republicans who are selected to be the victims in the elections for the Fifty-second Congress can have any bearing on their position and standing in the coming Congress or in their relations to the Speakership. The Ohio delegation is elected for two years to come, and, barring accidents, will serve during the first and second seasions of the Fifty-first Congress. The matter of re-election can not be determined a year abead, by any Democratic post election flat or caucus in Ohio. The expression of political hatred toward the Ohio Republican delegation in Congress, which would deprive such members of the Sightest chance for advancement in the House to which they have been legally elected, indicates what would happen if some Ohio Democrats could bave their way.

The proposition to punish the Ohio Republicans in the Fifty-first Congress for the supposed changed aspect in their political futures, owing to the recent result of the election, finds some encouragement in certain Republican quarters, where feeling runs high on the Speakership question, but there is no sense or logic in such an argument, and no Republican dare openly endorse in. The Speakership election and the subsequent assignment of committees next month, will discover the Ohio Republicans and talents entitle them to, without regard to tho redistricting programme of the Democrats.

their service and talents entitle them to, without regard to the redistricting programme of the Democrats.

There are some singular facts noticeable about the comments on the result in Ohio. In the first place, that State is more talked about than of the others recently holding elections. Among Democrats there is a mixture of revengeful expressions aimed at the Republicans with their words of celebration, but among Republicans the first feeling of disappointmint and surprise being passed,

Where the negro is most numerous he is poweriess to make his vote feit in behalf of the Republican party.

If the negro were to vote the Democratic ticket in the cotton States the only difference would be an increase in the Democratic majority. Mr. Astwood should think of these things.

They Will Carve Ohle.

The Democrats of Ohio will soon have the Legislature of that State in their own hands. They will celebrate their victory in various ways to be remembered. Among other things they will redistrict the State for Congressional purposes.
Ohio has now fifteen Republican and six Democratic alm will be to reverse the politital representation. It may require some ingenuity to accomplish this, but the Intelligences will do the Democratic be politital representation. It may require some ingenuity to accomplish this, but the Intelligences will do the Democratic be admit that they are not legiting in this availage.
